

Different Clothes

Presented by ABSI

Different Clothes

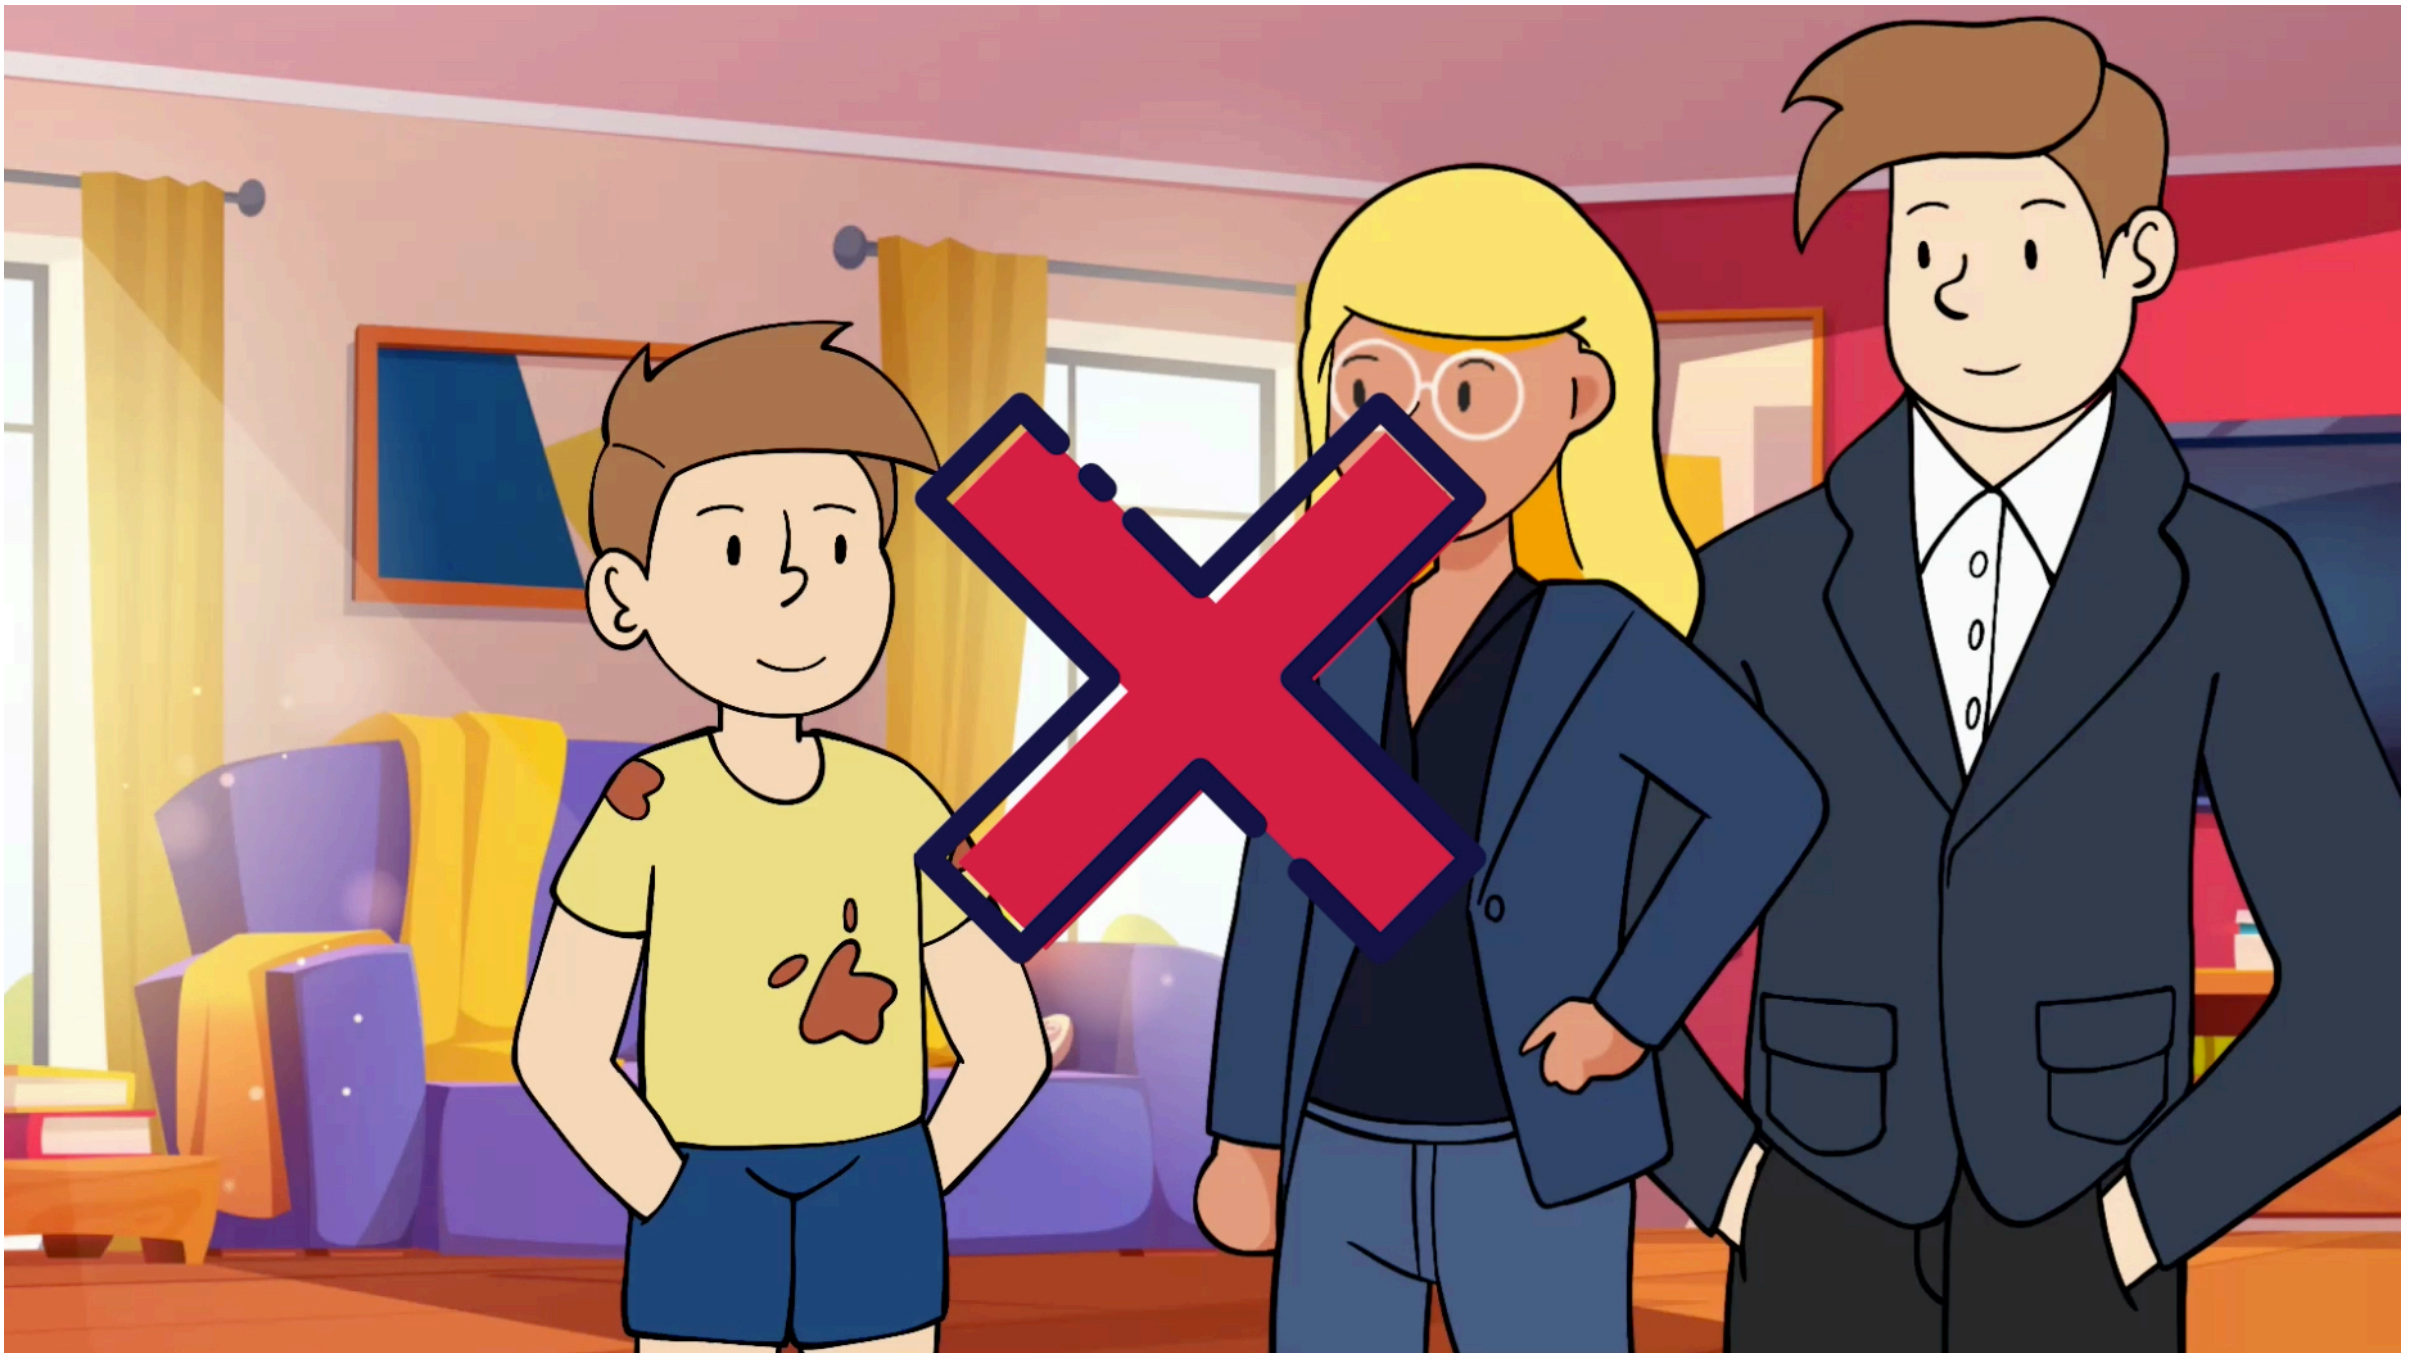

From Autism Behavior Services, Inc.

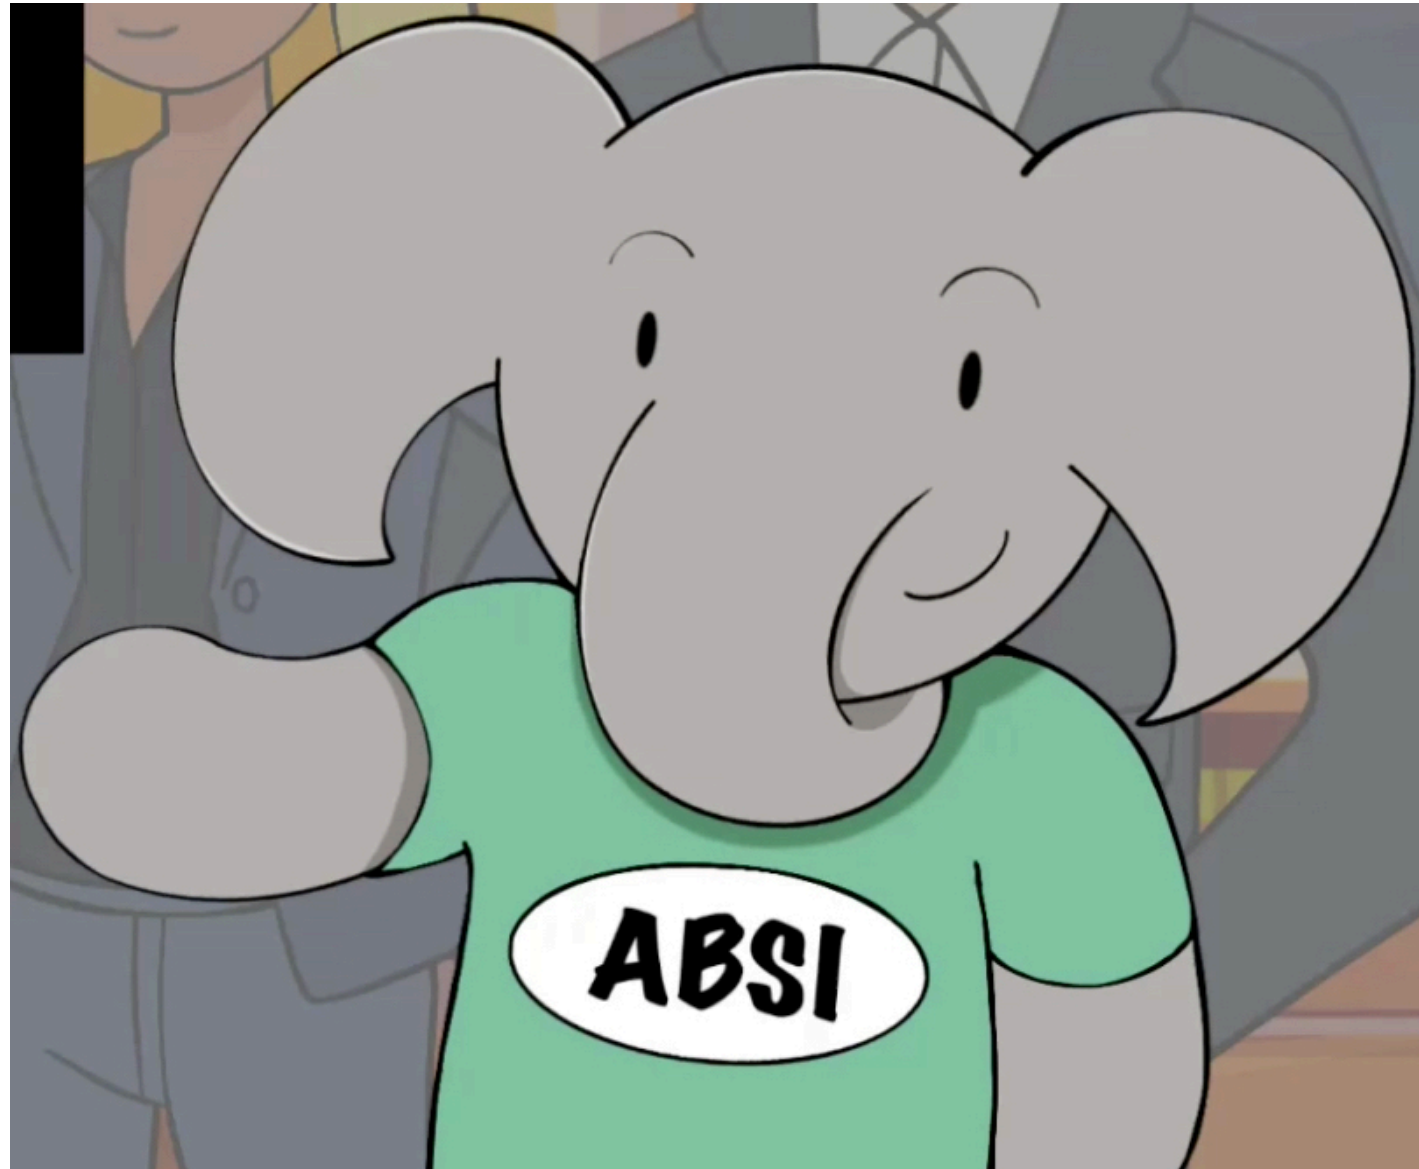

Adam is supposed to take a family portrait with his parents.

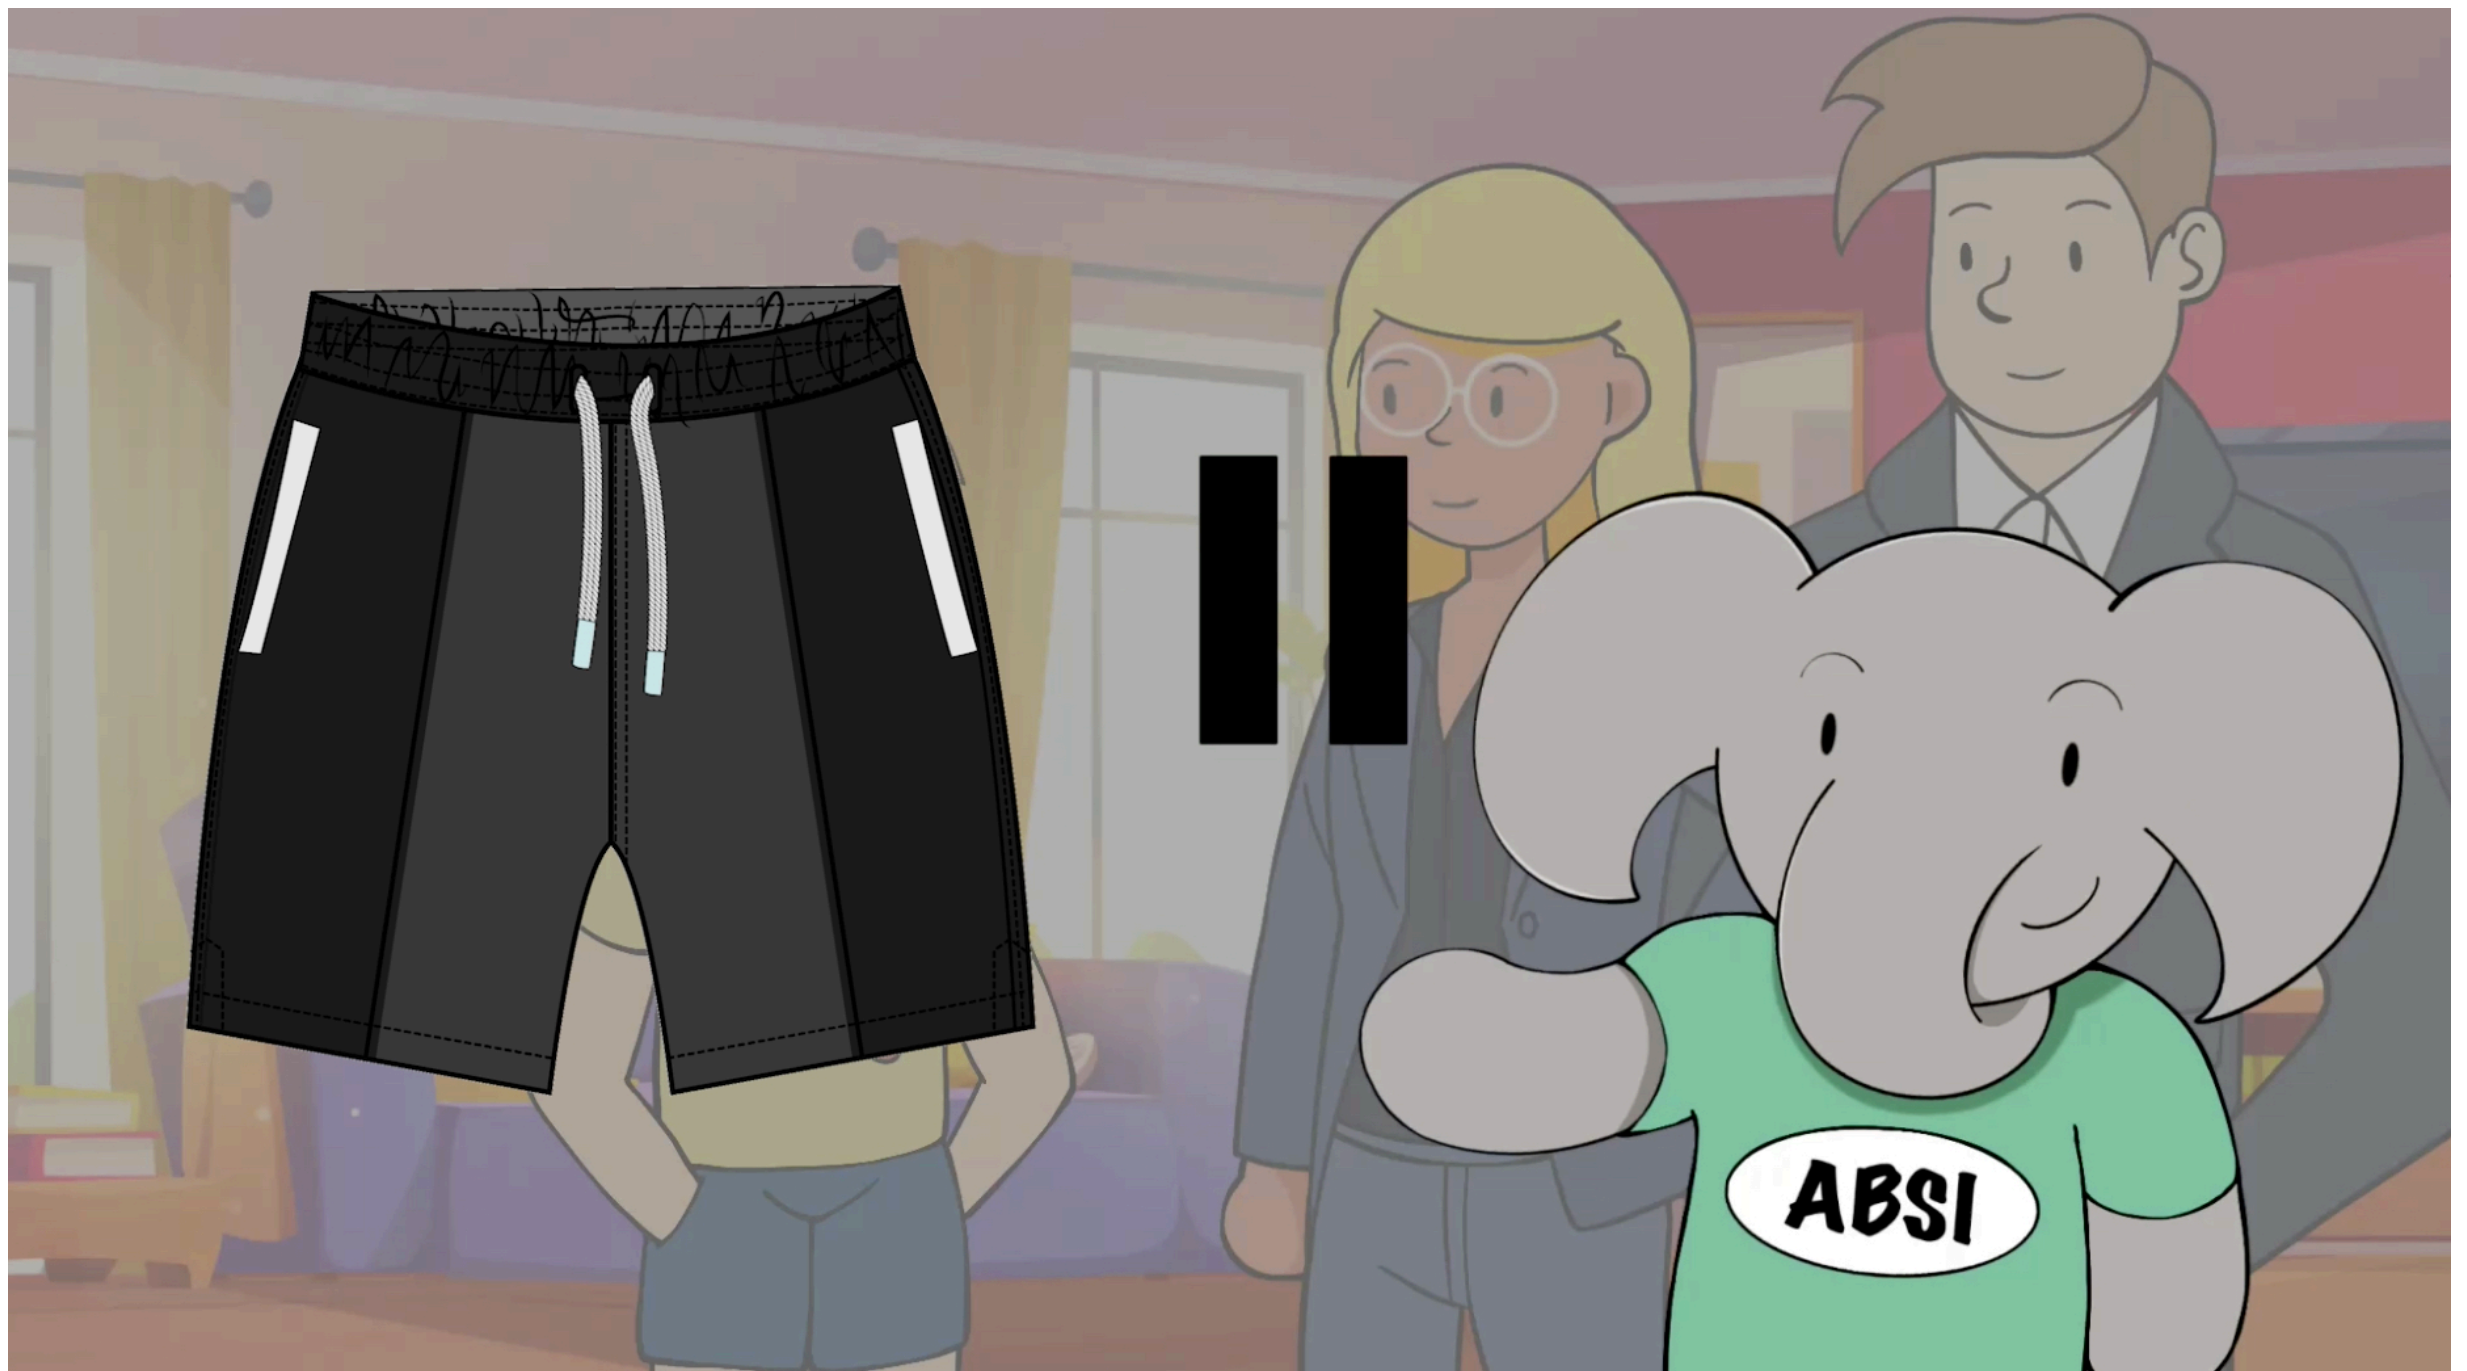

As you can see his shirt is dirty and he's wearing shorts. Is this the way we should dress in a family portrait?

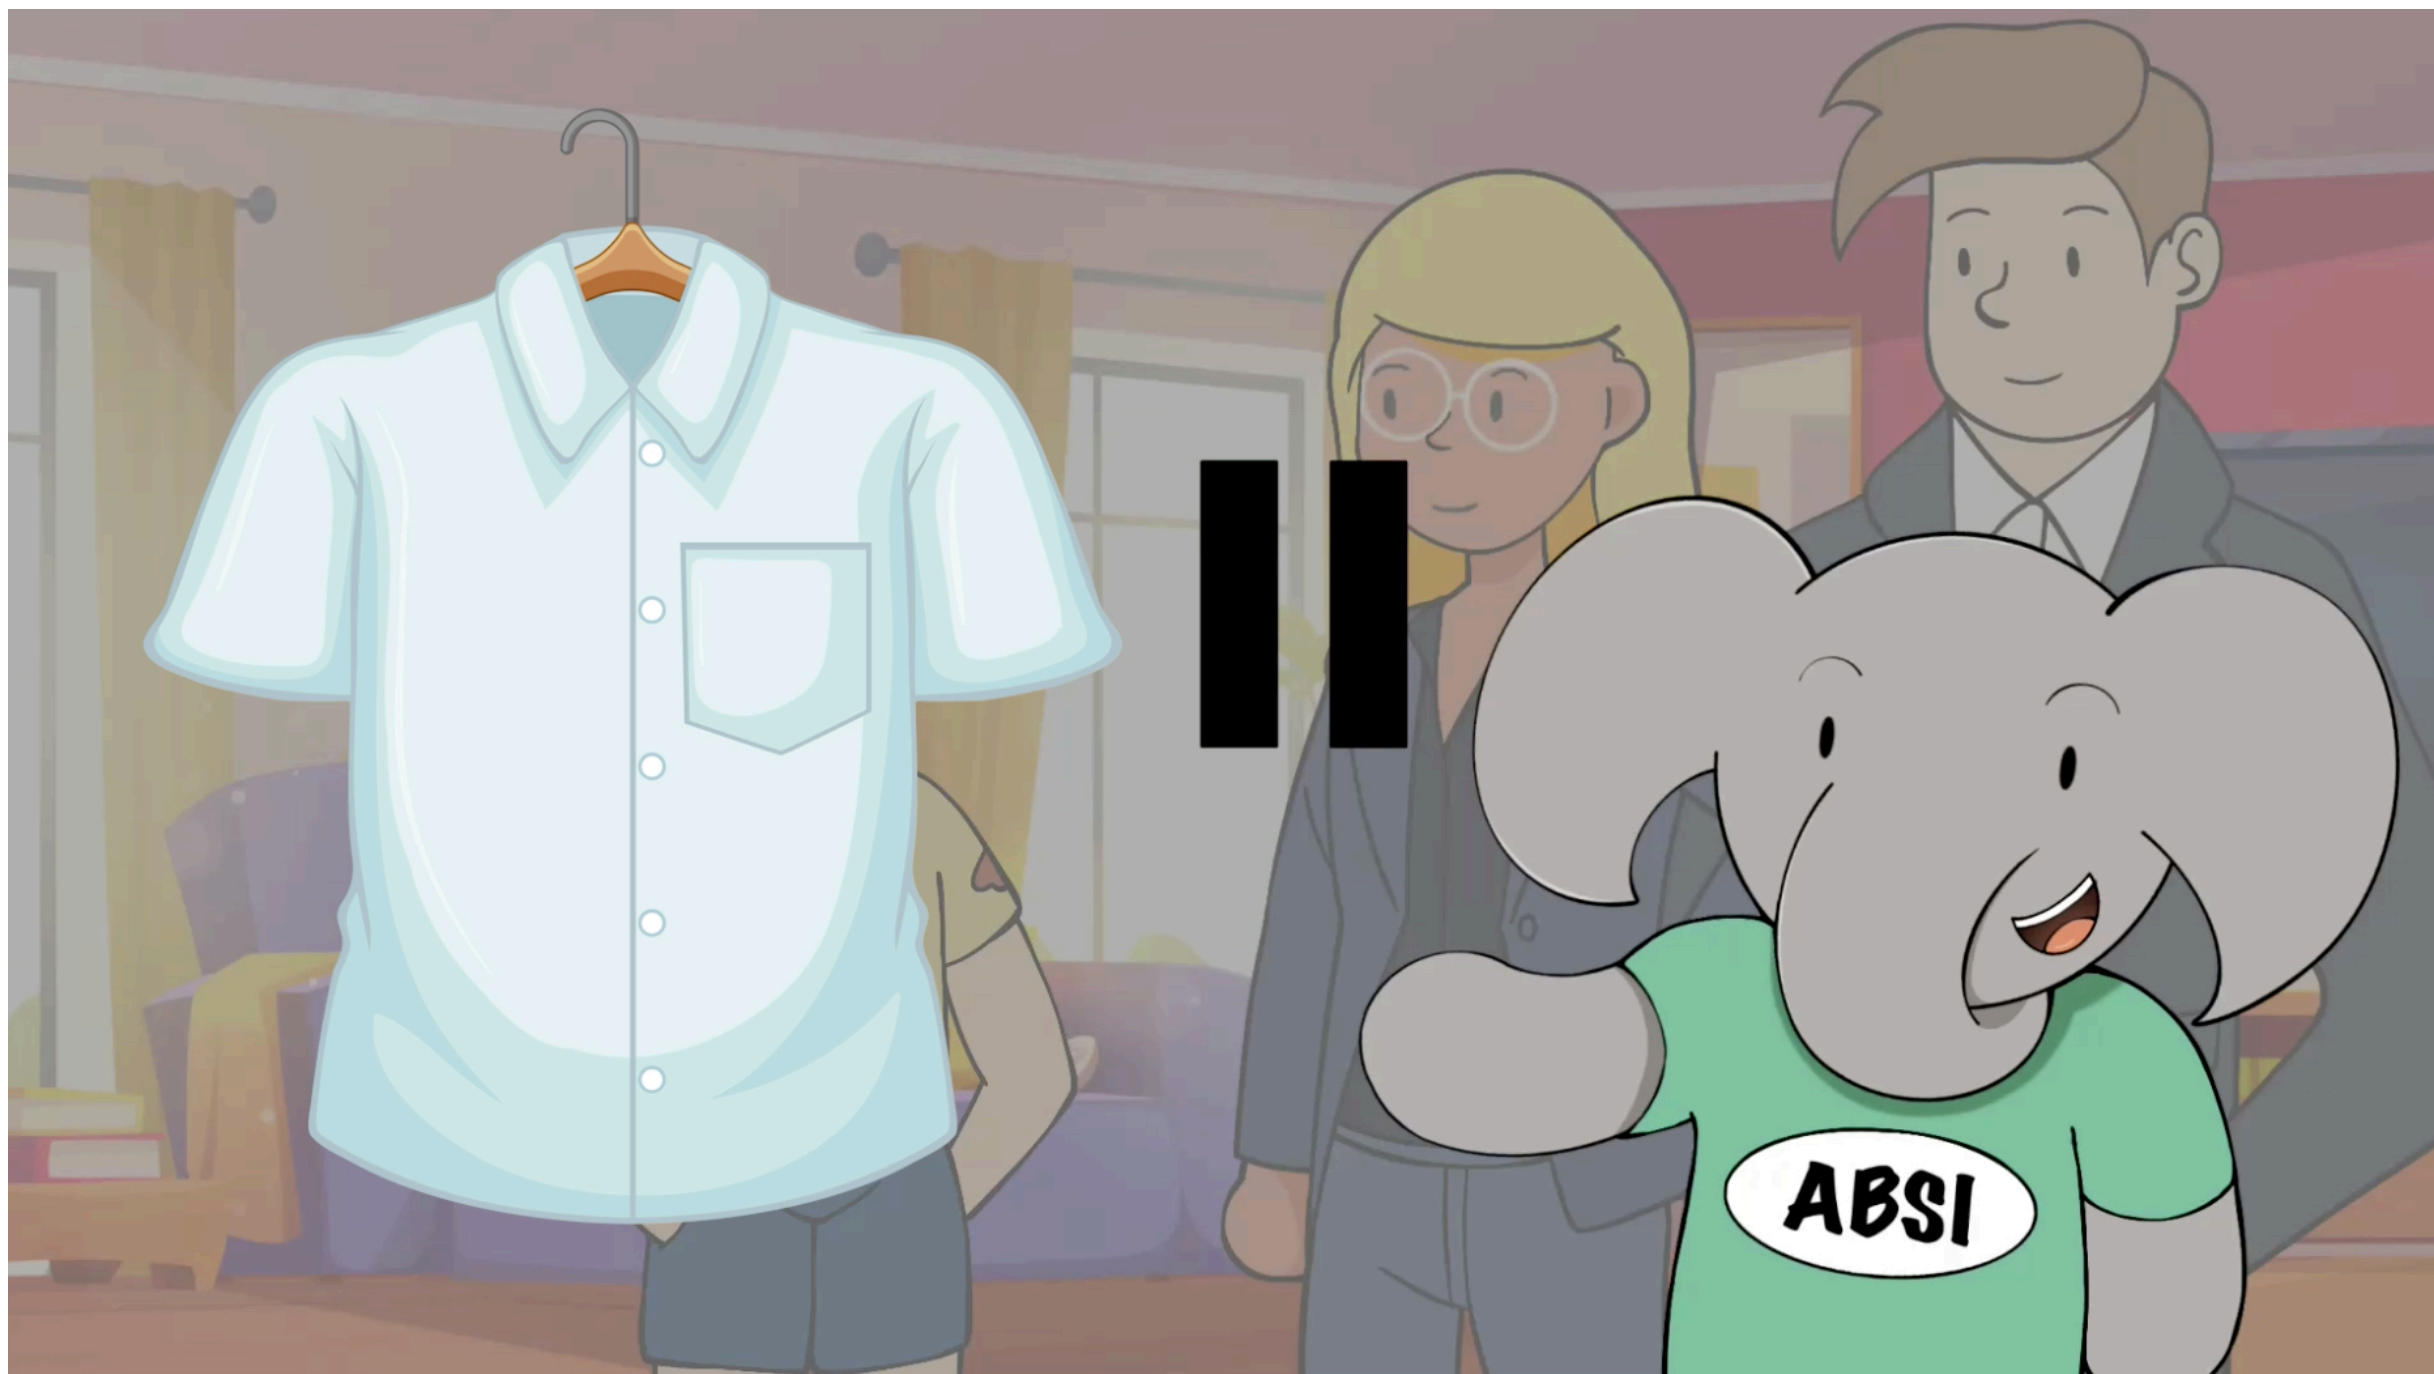

The answer is NO.

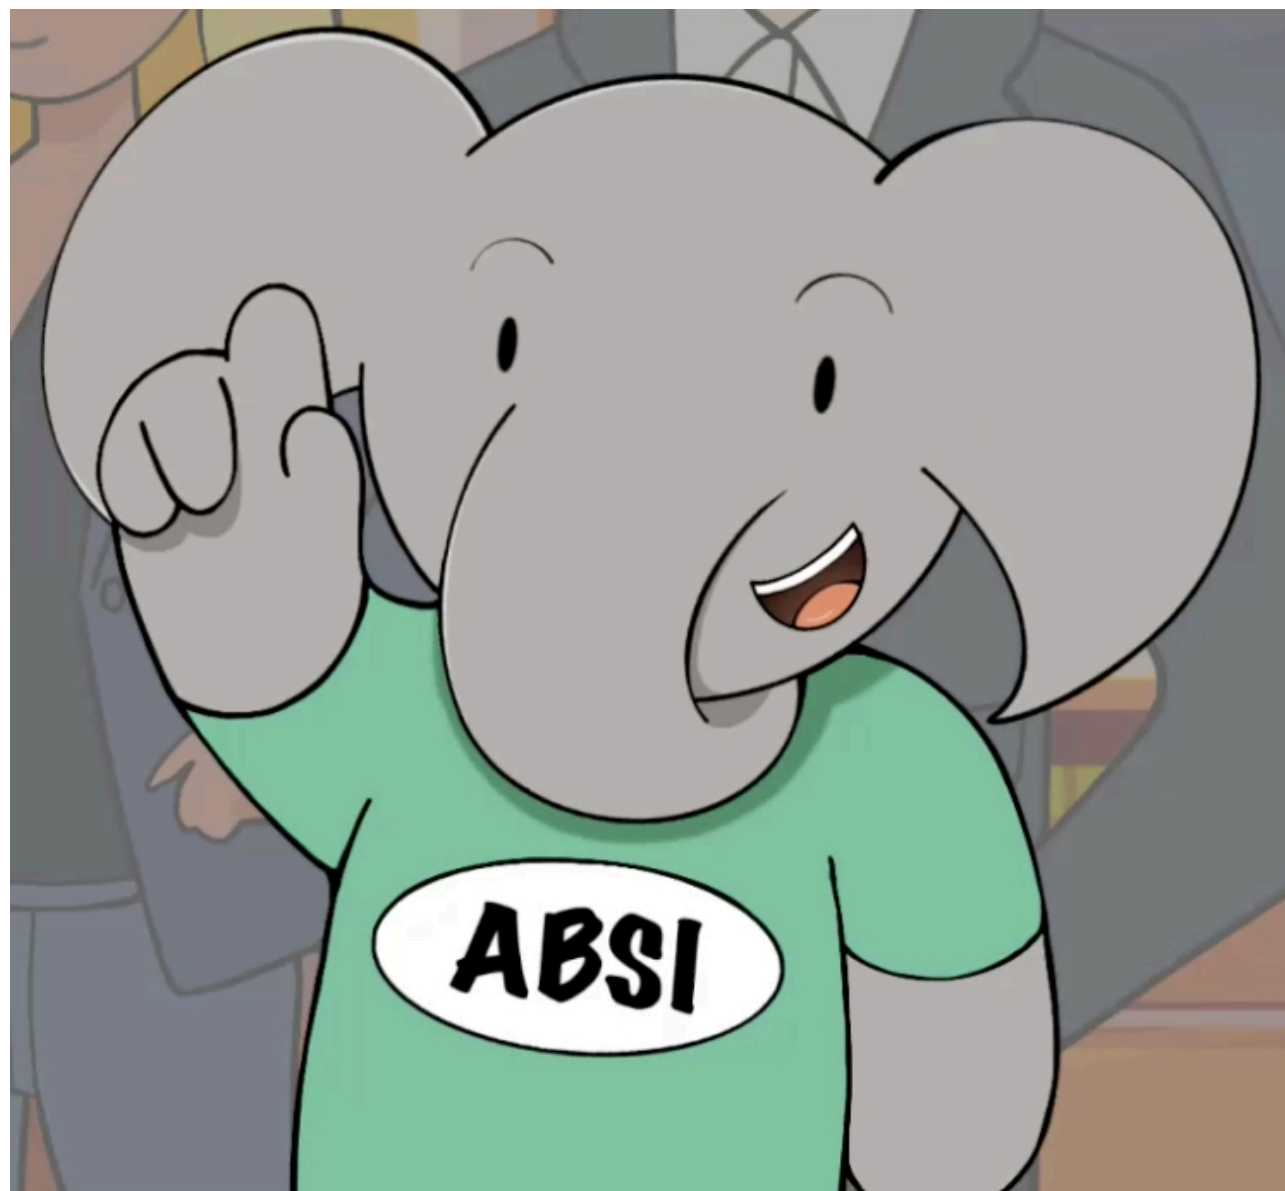

We wear different clothes for different things.

If we're playing with our friends we can wear shorts or jeans.

If we're going to have our pictures taken we should wear button shirts, sweaters, and slacks if we have them.

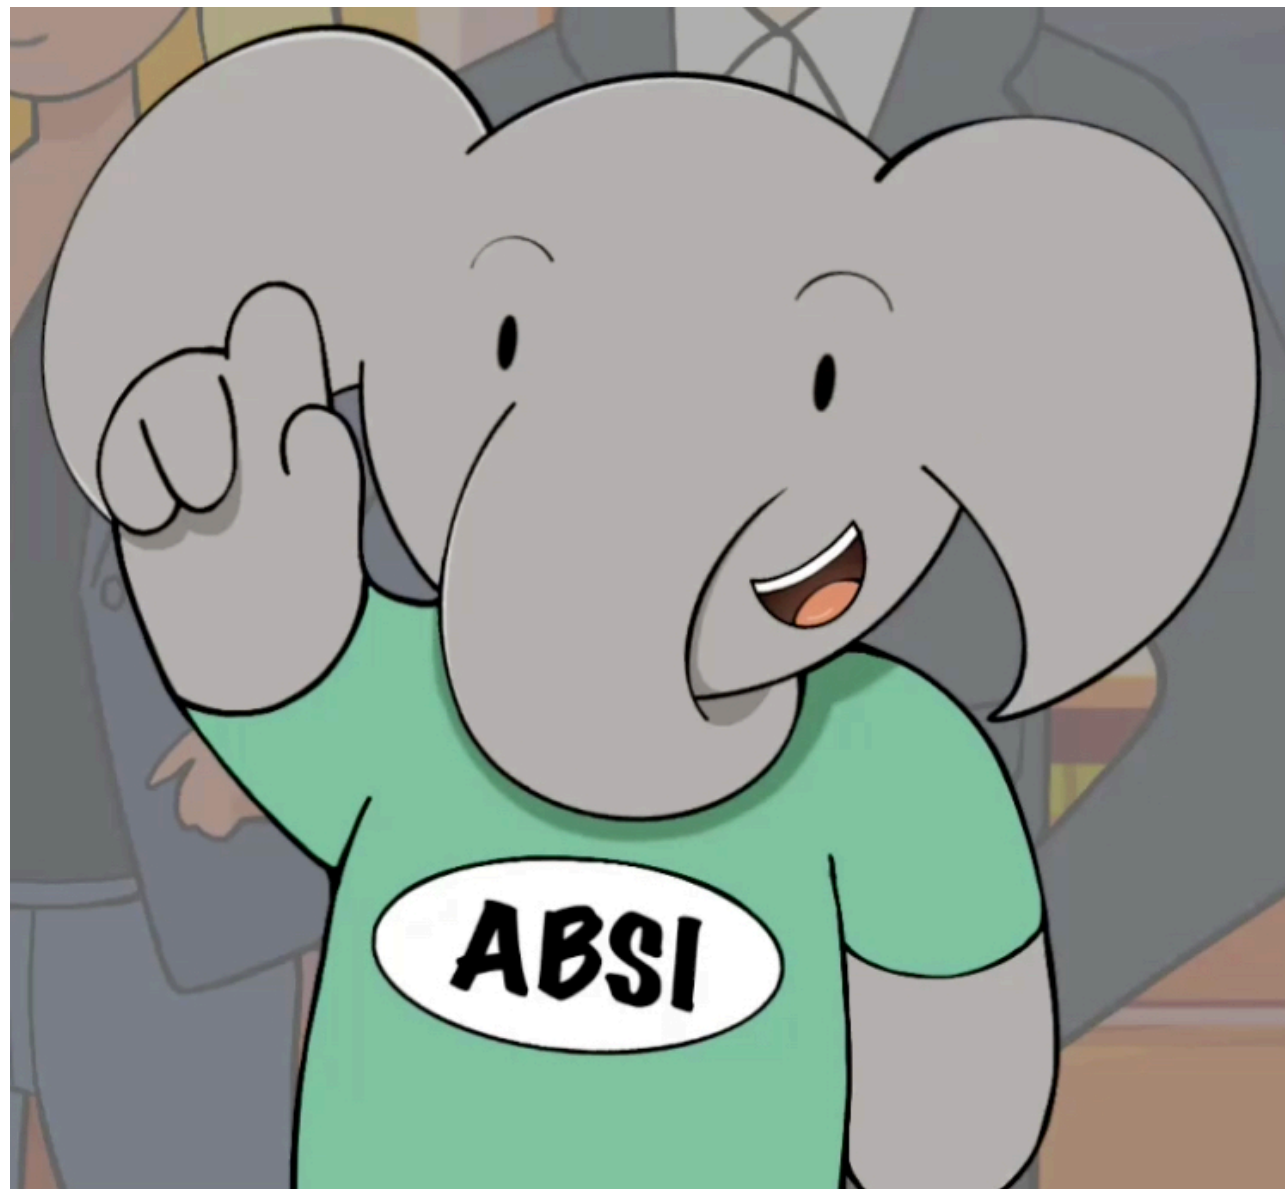

And if certain clothes don't feel good against your skin, let the people who buy your clothes know that. They can find different clothes that are comfortable when you wear them.

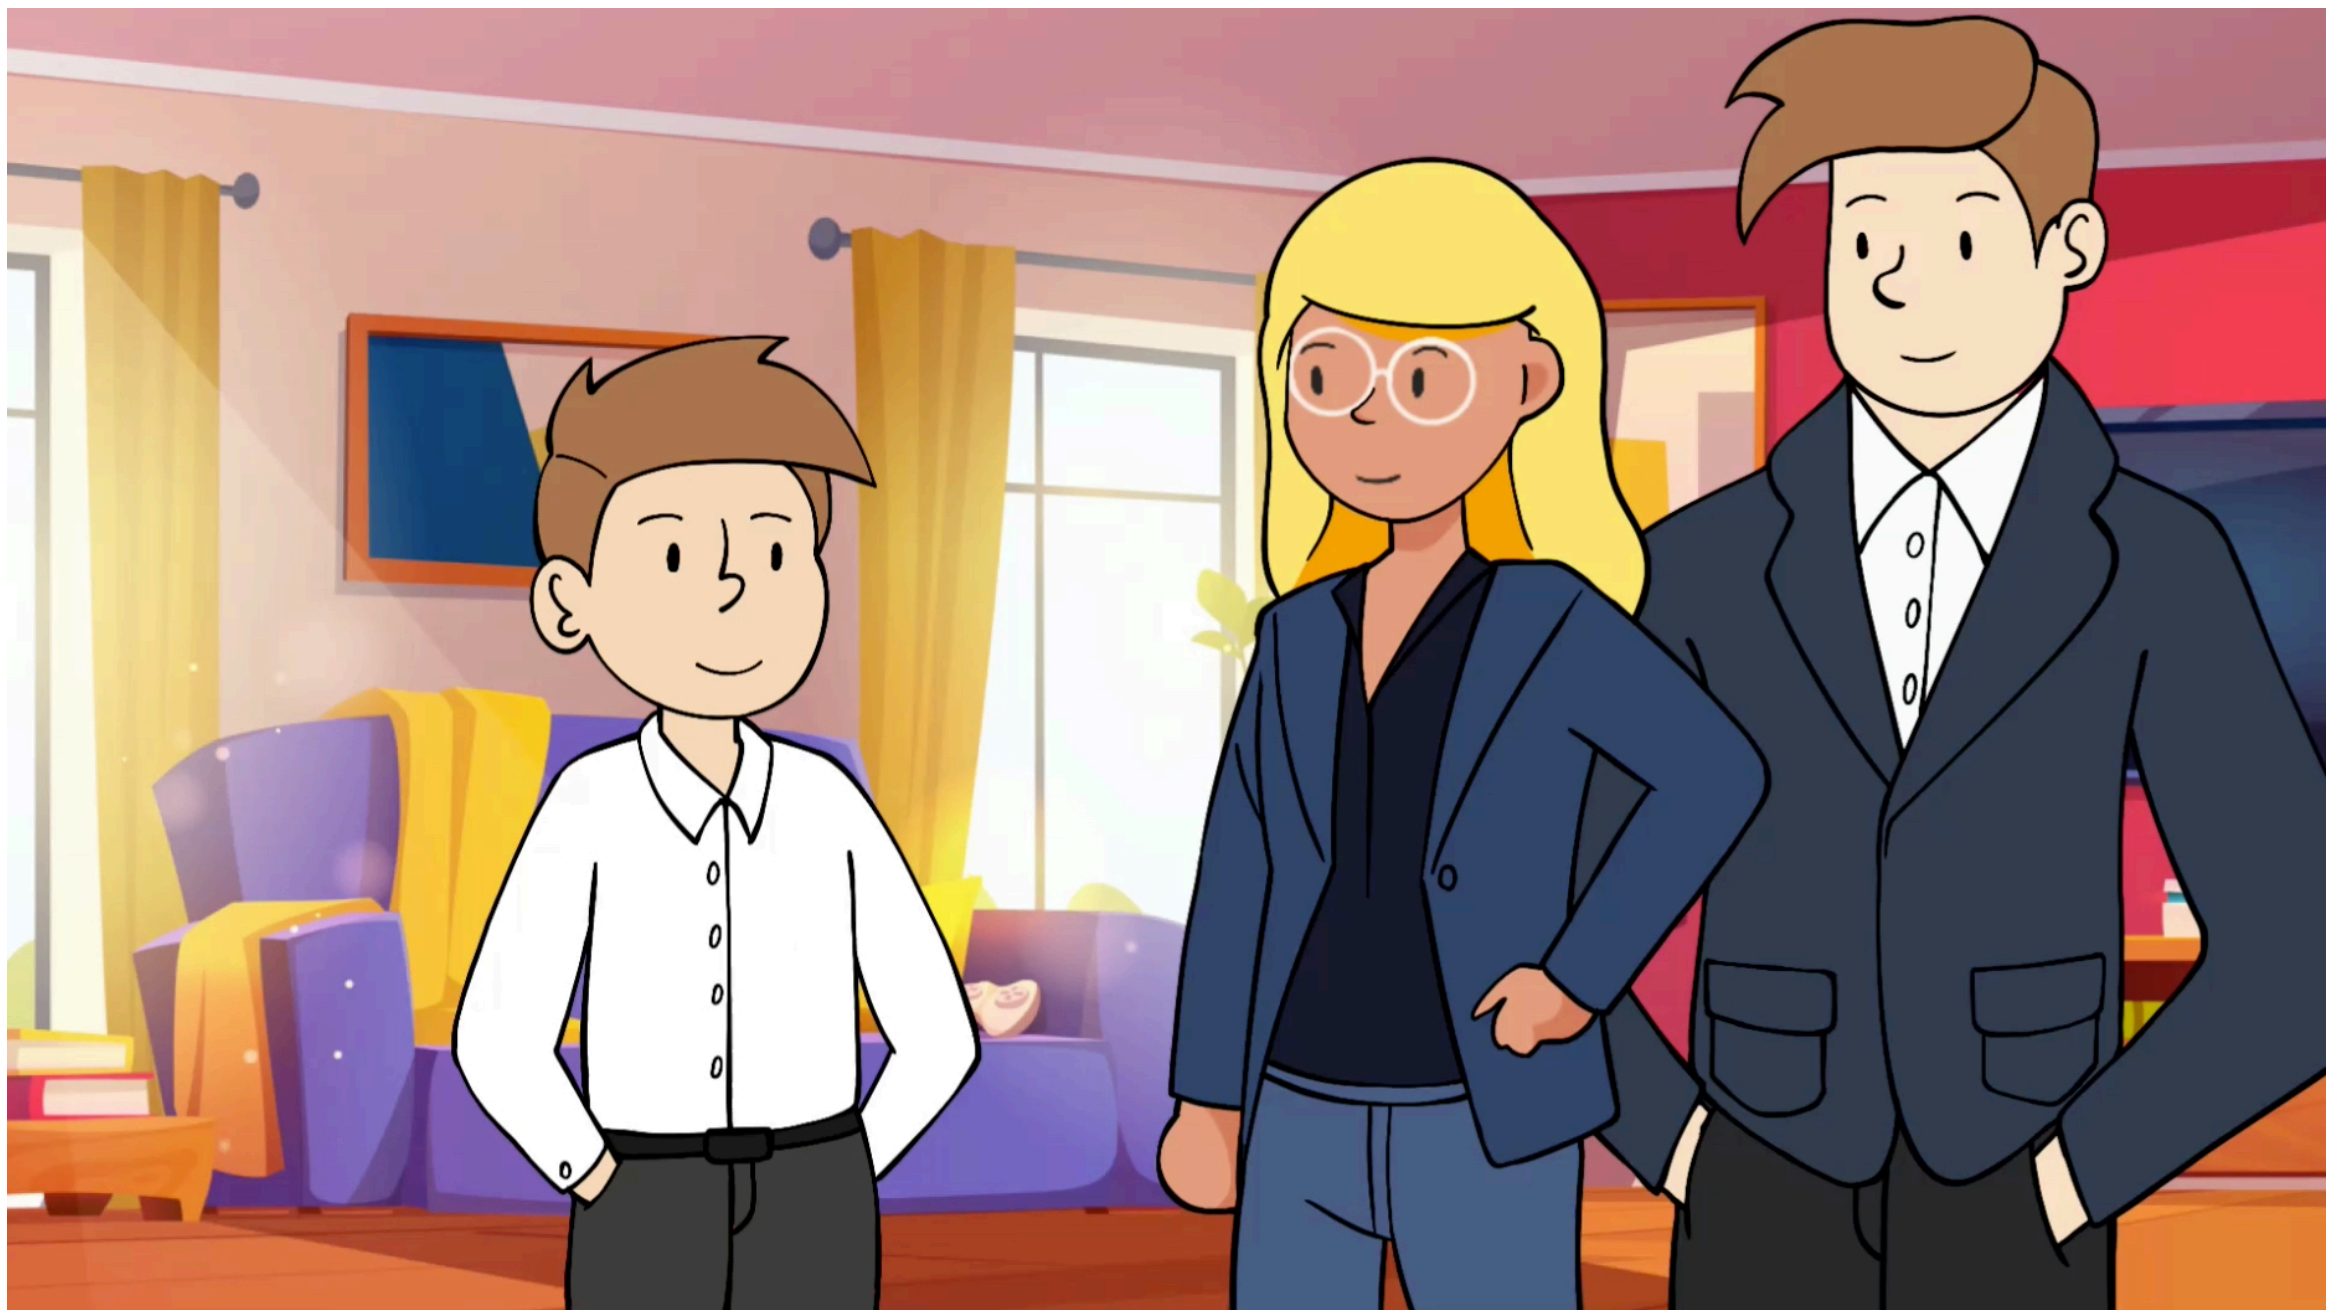

If they bother you, another thing you can do is cut off the tags on the back of your shirts.

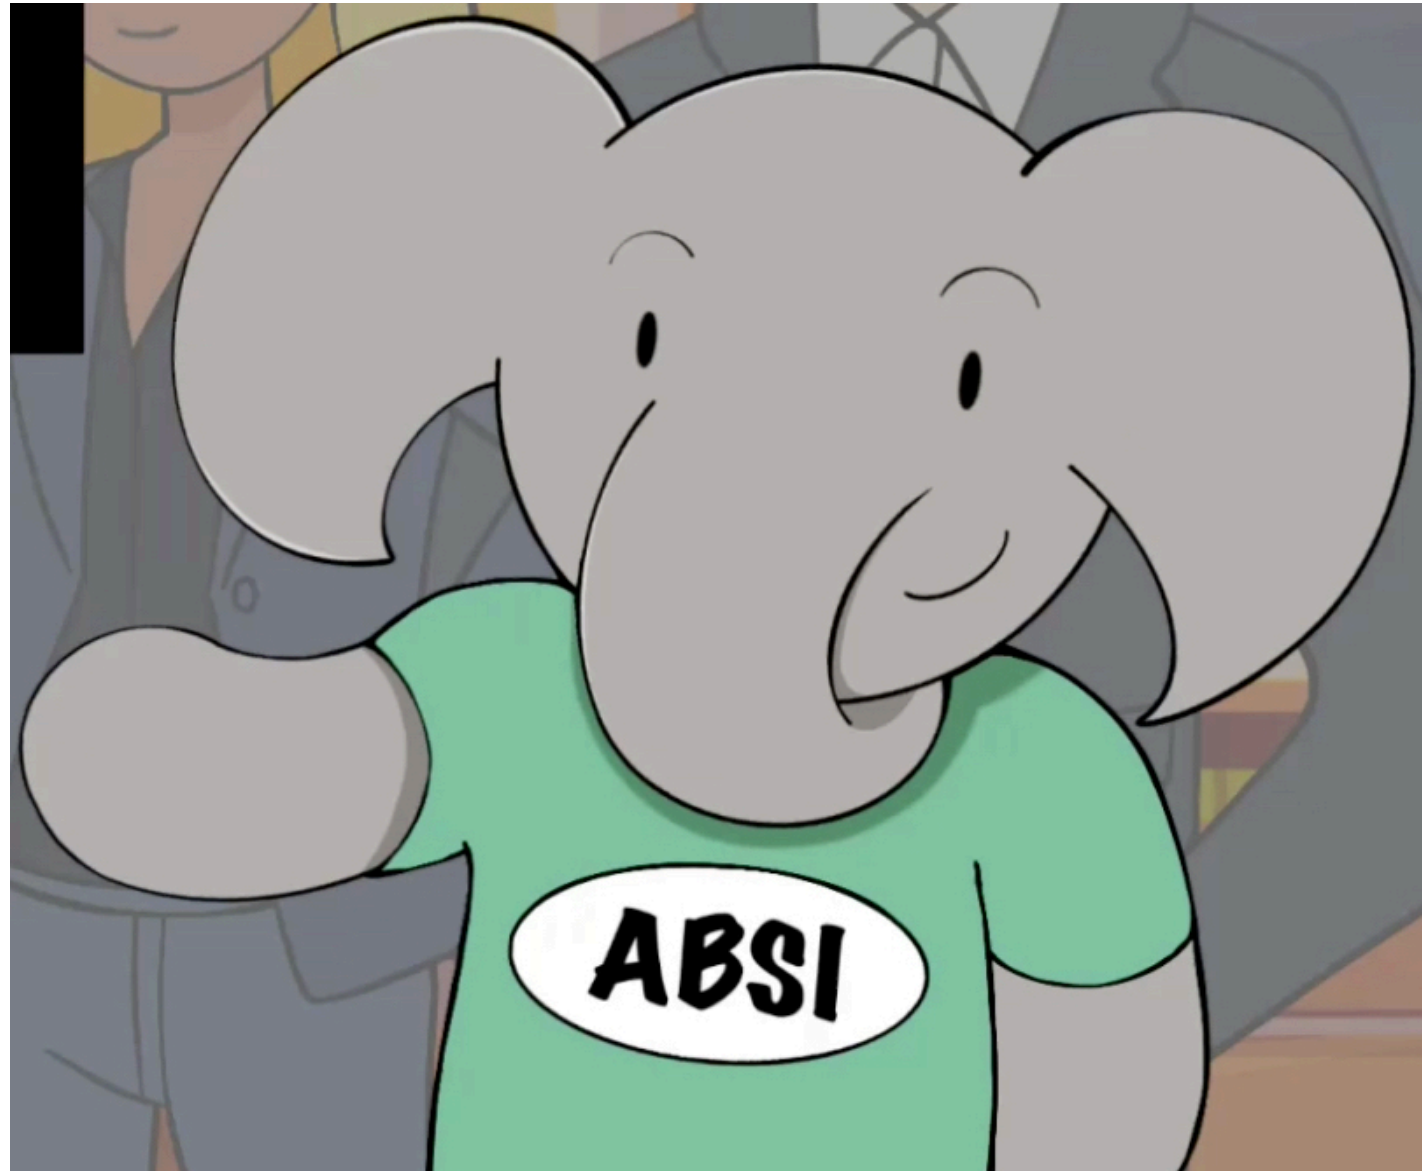

You can also wear shirts underneath a button shirt if that is more comfortable.

Lets see Adam try this again...

How did Adam do? Did he dress appropriately?

The answer is YES!

Adam is wearing clothes that are appropriate for a family portrait. Lets see how he does in other situations...

This is obviously the holiday season. Adam is wearing holiday-type clothes. Is he dressed appropriately?

The answer is YES again! Adam got it right!

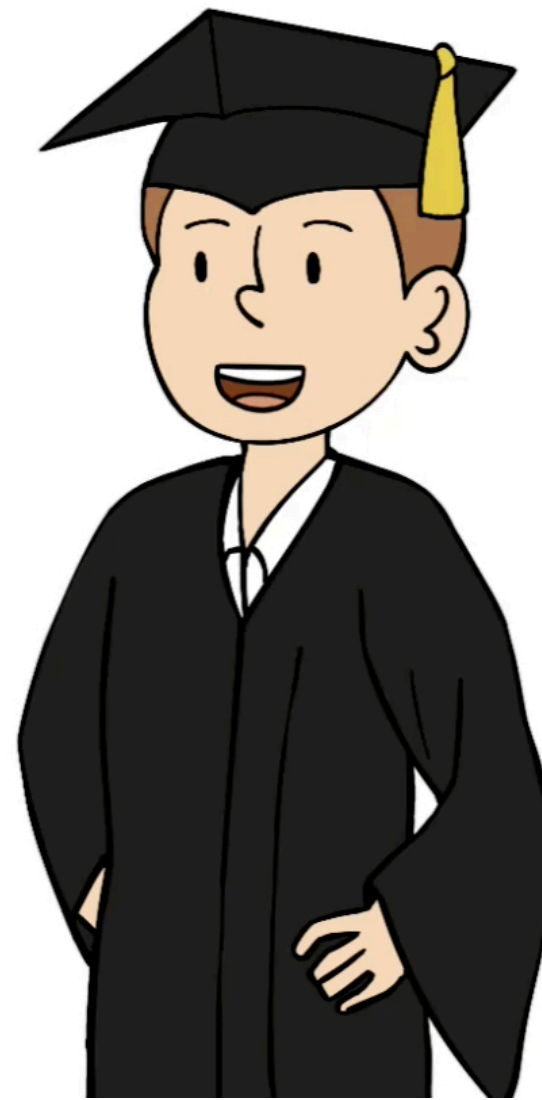

Next, Adam is at a wedding. Is he dressed appropriately?

The answer is NO.

At a wedding you want to wear a collared shirt, slacks, and nicer shoes NOT a t-shirt.

Is Adam dressed appropriately for graduation?

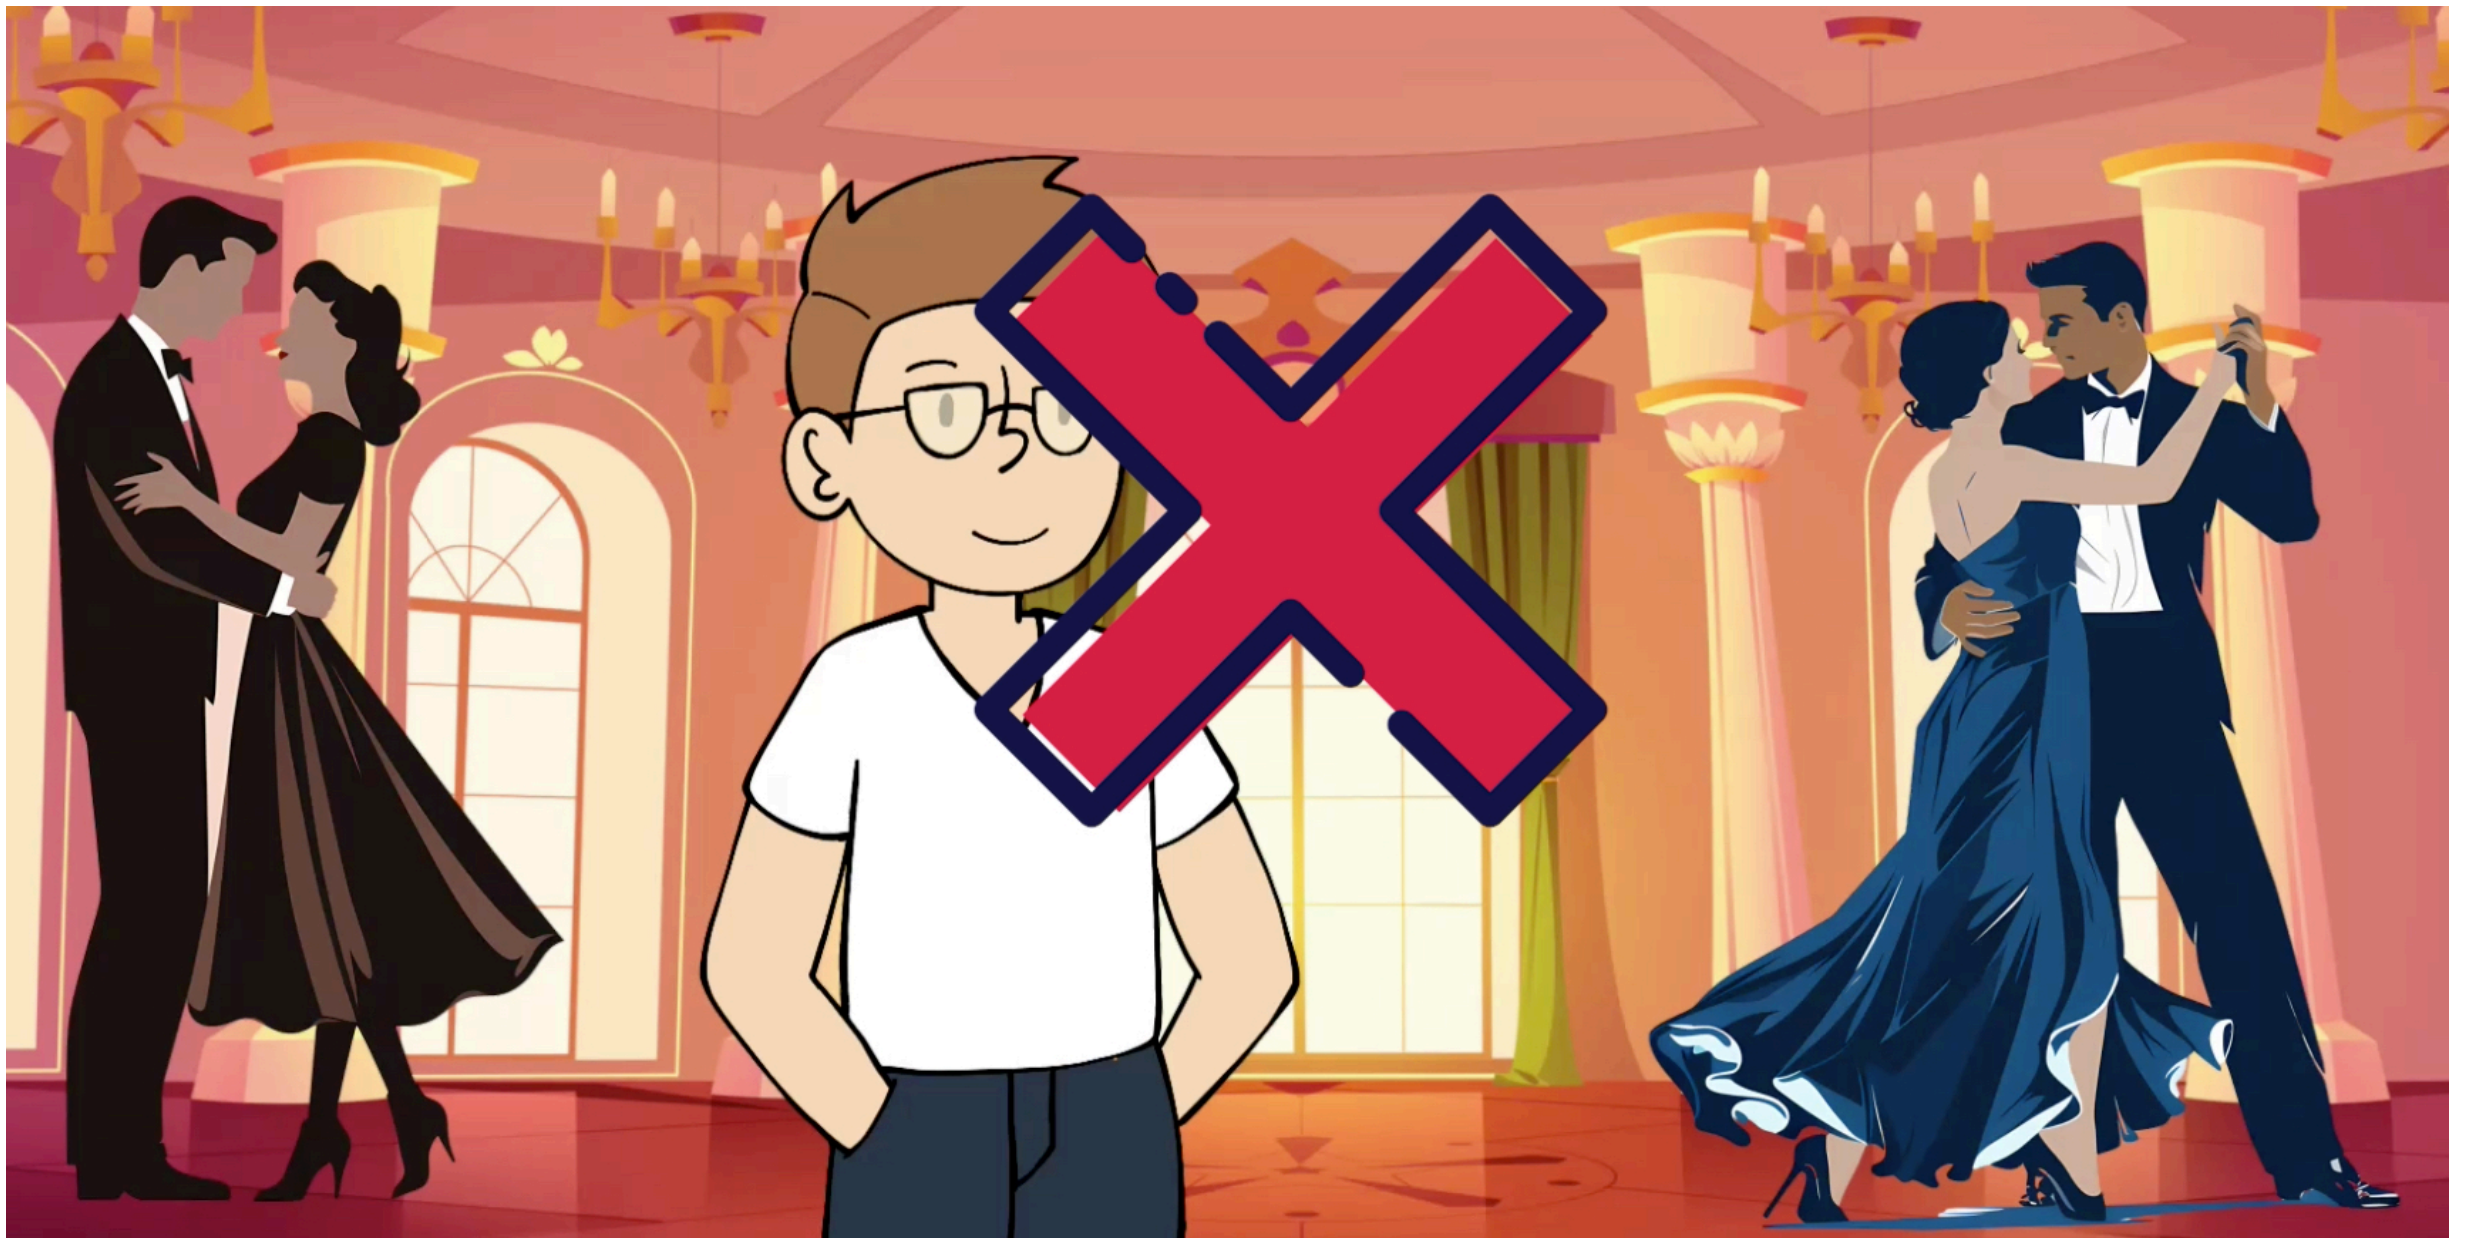

The answer is YES.

As you can see other people in the picture are in a cap and gown, so Adam should be too.

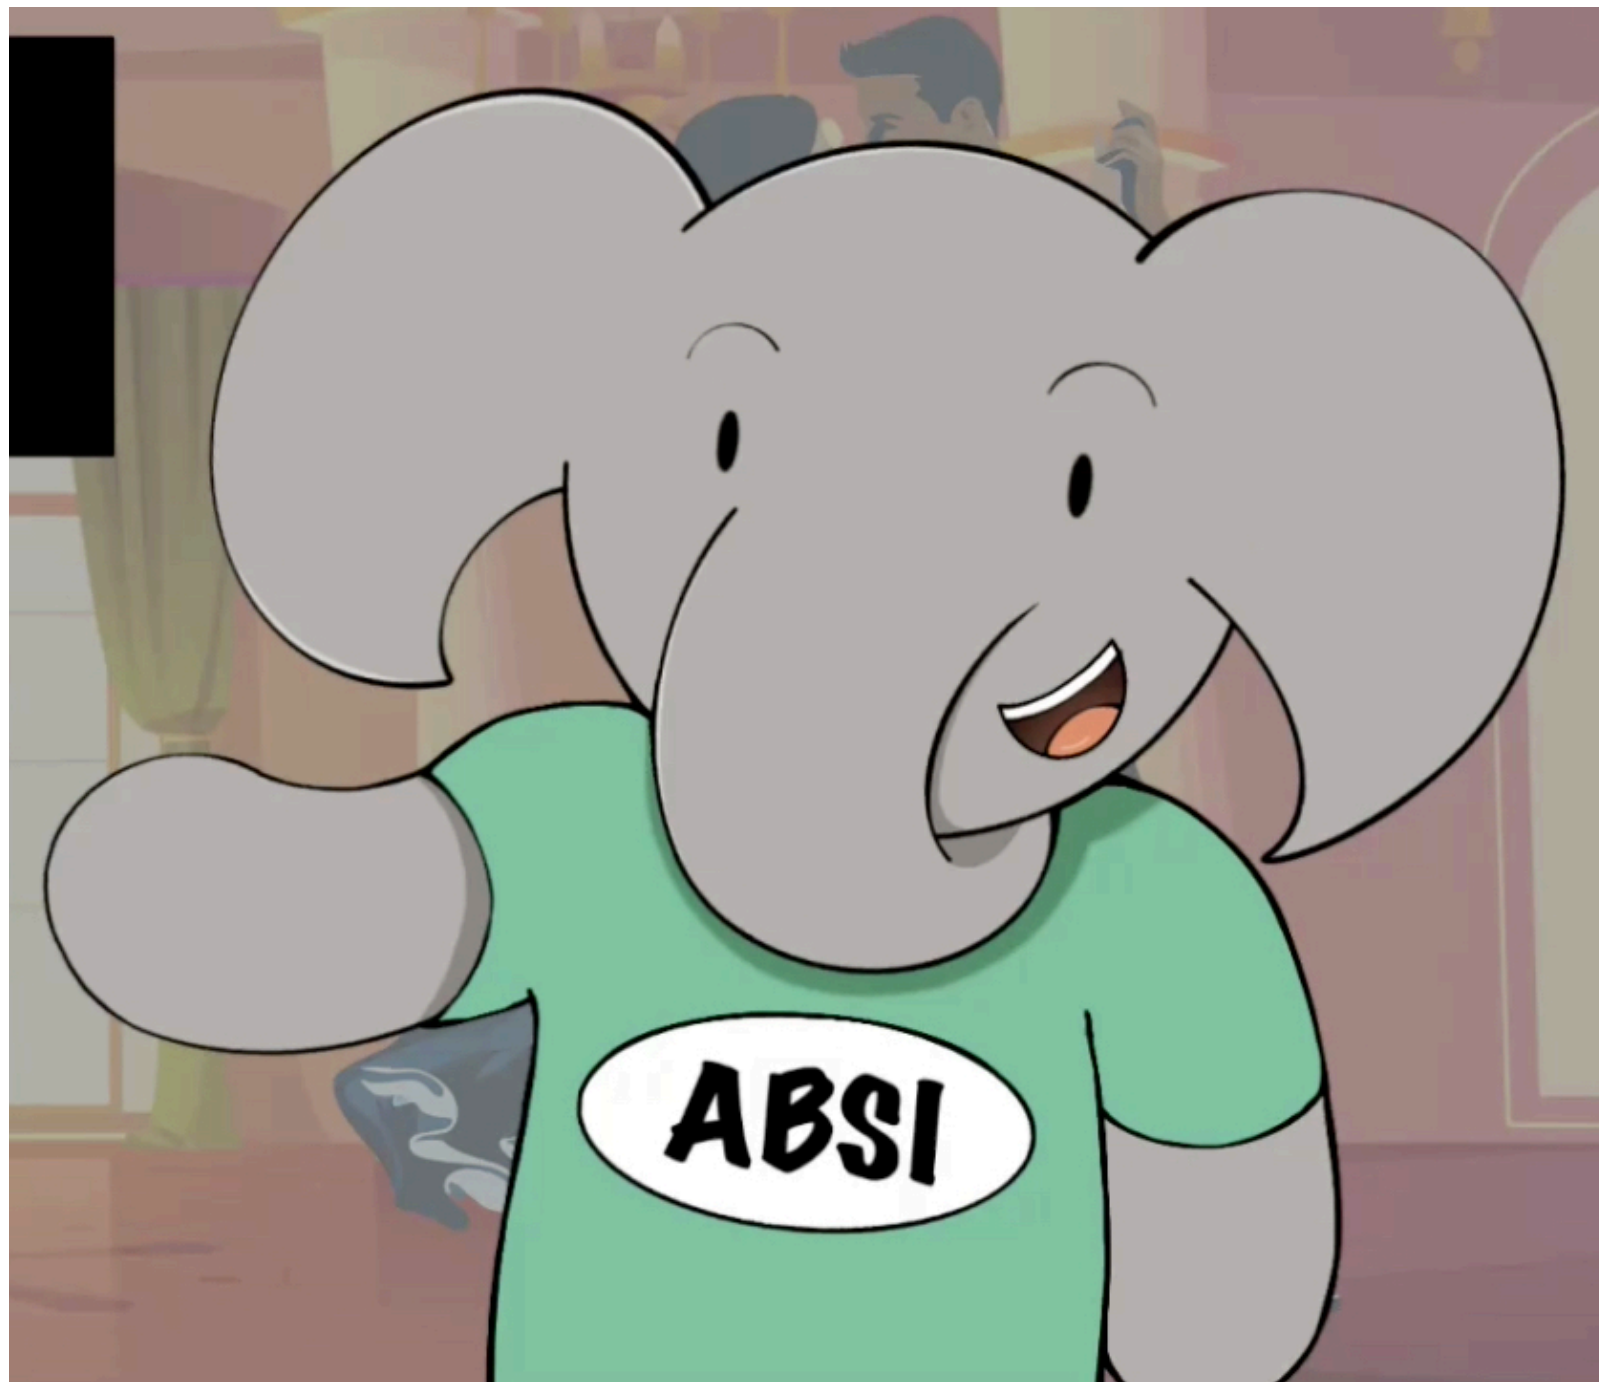

Next Adam is at a formal event where people are dressed up?

Is he dressed appropriately?

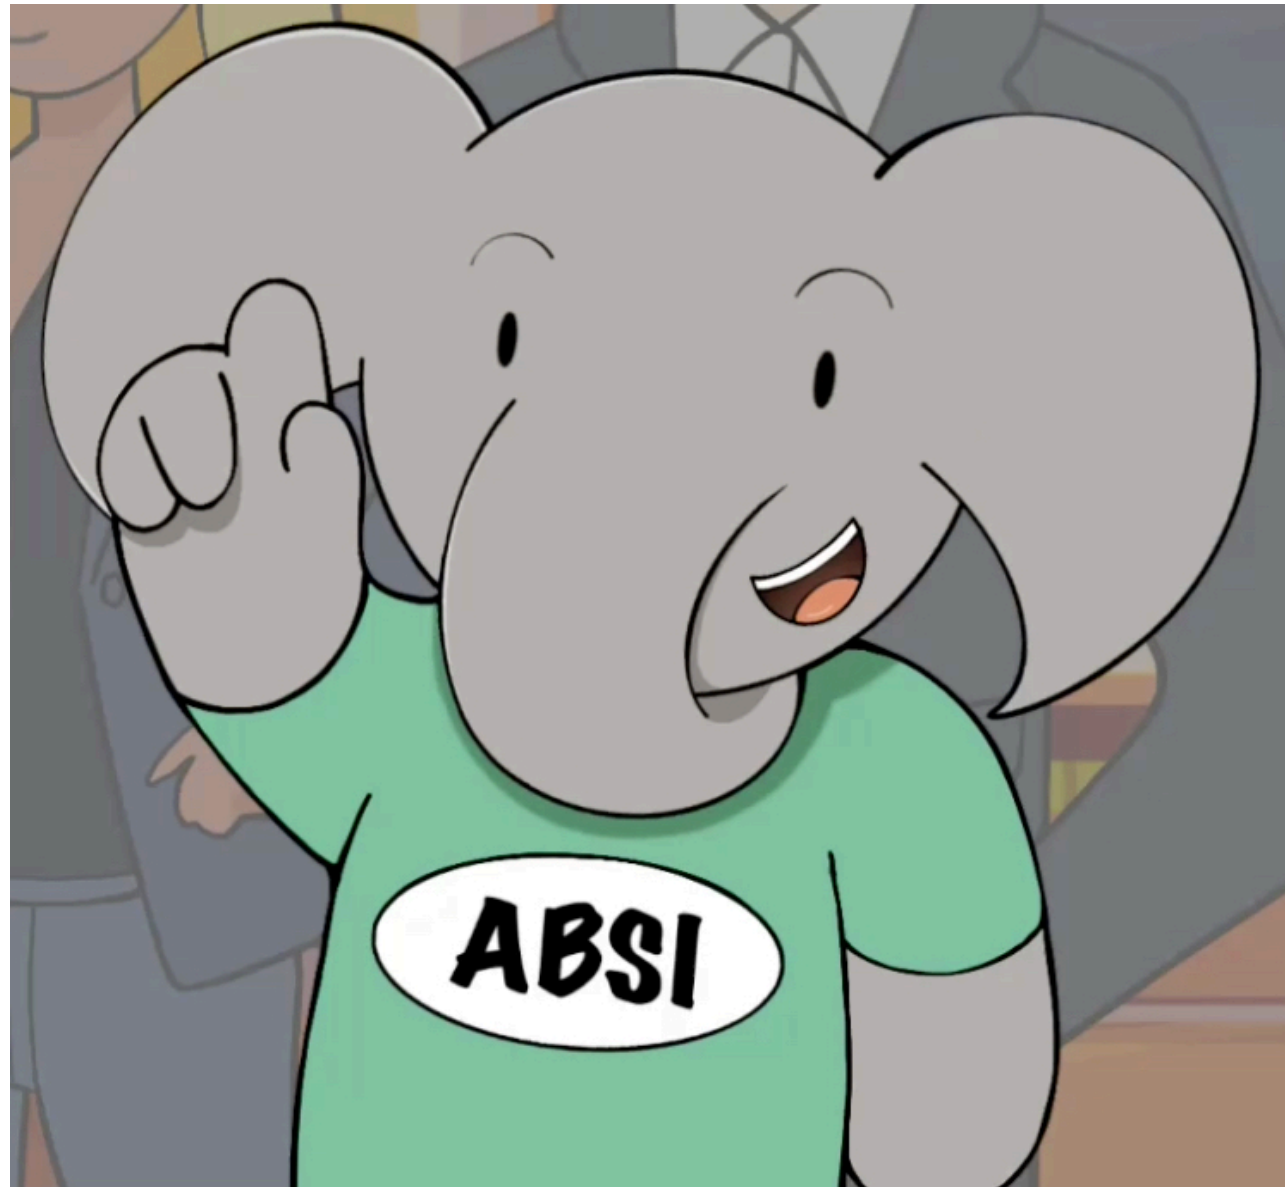

The answer is NO.

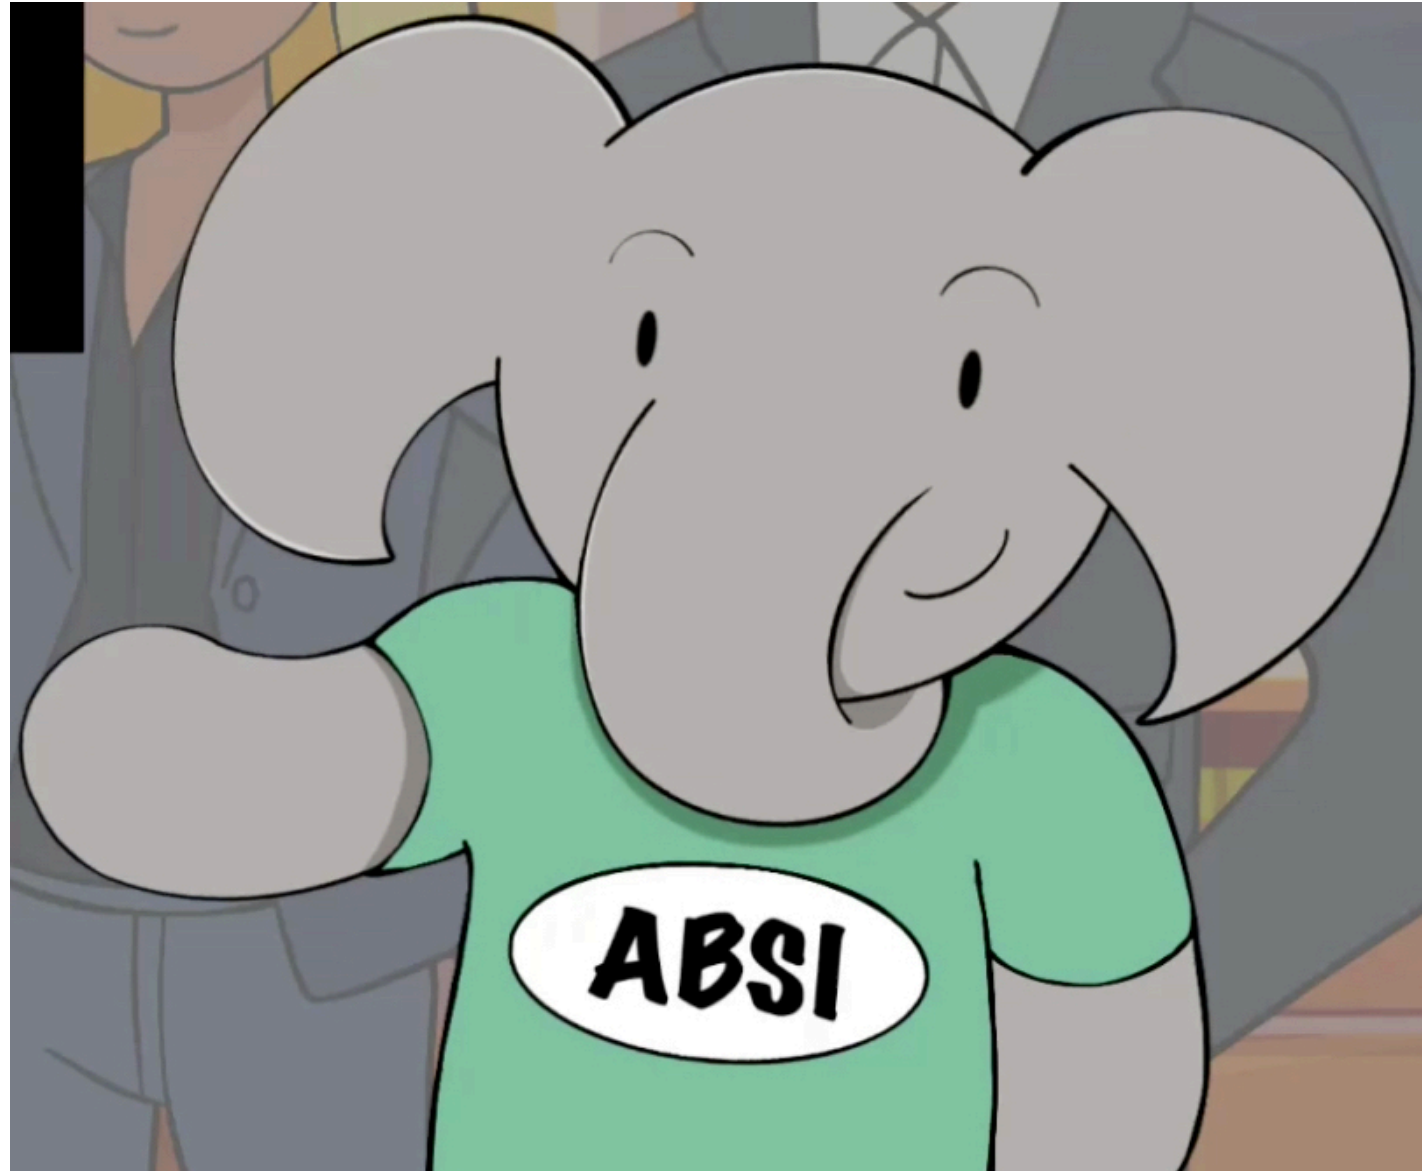

Again, Adam should be wearing a collared shirt and slacks.

Remember, if you're going to an event and everyone is dressing up, you should dress up, too.

Don't forget that if you need to modify dressing up to be comfortable, you can do that, too.

Lastly, if you're going to an event where people aren't dressing up, then you can wear more casual clothes like T-shirts, jeans, and shorts.

What situations can you think of where you wear different clothes?
